Und trinken wir des Weines
So giebt des Helden Blut
Dem kühnen Sohn des Rheins
Erst recht den Heldenmuth.
Wir fürchten keinen Feind;
Auf dieser Erde Stern
Ist auch noch kein Feind
Kein Hieft rich mehr vom Berg.

Held Dietrich, edler Herr von
Sinn, hat sich in dem
Jahr, das ihm vorrath
Die Erde hat's gesehnen
Zuletzt ins Ries
Wird es ein edler Wein.

Herrnberger Edelwein

These tomatoes are of the highest grade. They have been hand selected and are warranted to be pure. They are entirely nutritious and in no way dissimilar from tomatoes in their natural state.

Canned under the strictest sanitary conditions at their peak of flavor and freshness, these tomatoes are packed in tightly sealed water with no deterioration to be expected.

Available singly or in cases for home or export trade.

Entered according to Act of Congress, in the year 1911, by
THE TOMATO BRAND CO.
 125 West 42nd Street, New York, N. Y.

This Soap is expressly prepared for the Fairer, it is very mild, being freed from the greasy particles which are found in all Alkaline Soaps, and may be safely used in the tenderest skin. It possesses peculiarly soft and balsamic properties, and not only preserves the skin soft and white, but where it has become hard, rough, or uneven from neglect, climate, etc. it imparts a pleasing softness to its natural outline and beauty.

CONDENSED MILK

is simply Pure Milk, from which, when perfectly new and fresh, nearly all the water has been evaporated in vacuo, and to which nothing whatever is added. Manufactured by BORDEN CONDENSED MILK Co., Winsted, Ct.

FOR SALE BY THE
NEW YORK CONDENSED MILK CO.

34 & 36 Elizabeth Street,

One door from CANAL ST.,

NEW YORK.

CONDENSED MILK.

(PRESERVED)
BORDEN'S PATENT.

Patent Issued August 19th, 1856,
Re-issued May 13th, 1862,
Feb. 10th, 1863.

Is the CONDENSED MILK, combined in due proportions with best Refined Sugar. Prepared in this form, it will remain perfectly sound.

For use in Tea and Coffee, and for Ice Creams, Custards, Puddings, and all other articles of cookery requiring both milk and sugar, it will be found excellent. It cannot, when diluted, be distinguished from the best country milk sugared.

Sugar of Milk may appear granulated or crystallized in lumps: it dissolves in warm or hot water. This proves the milk is pure, and not having undergone a change before or during the process: the crystals should be dissolved.

DIRECTIONS.

The Cans should be opened at the bot cutting the tin nearly round, and let it open, or partially covered.

In removing the Milk from the cans, use a DRY spoon, and let the can remain open.

For Custards, Puddings, &c., add the proportion of three pints to the pot suit the taste: it can be used in Tea and without diluting.

For Oustards, about four eggs may be added to the pound of milk: a less quantity answer for Puddings: none are required for Rice Puddings.

For Ice Cream, dilute with water, in proportions as to suit the taste, and it is fit for the Freezer.
